

DOOR HOLDING MAGNETS

Door holding magnets GTR070

GTR070A044 IP65

The door holding magnets are mainly used as holding devices on fire protection doors. They hold them in place when open. Controlled by a fire alarm or smoke protection control panel, they release the closures by interrupting the power supply in the event of a fire hazard.

Product features:

- Protection class IP65
- IP65
- 12 W
- 2000N

DESCRIPTION	VALUE
Nominal voltage	24 V
Duty cycle	100 %
Power consumption	1.5 W
Holding force	1372 N
Design	Marine approved, with base plate, micro switch
Connection	Terminal clamp
