

DOOR HOLDING MAGNETS

Door holding magnets GTR070

GT70R022

The door holding magnets are mainly used as holding devices on fire protection doors. They hold them in place when open. Controlled by a fire alarm or smoke protection control panel, they release the closures by interrupting the power supply in the event of a fire hazard.

Product features:

- Coil vacuum encapsulated (IP65)
- VdS quality-controlled
- Tested according to EN1155 & EN 14637
- Type approval DNV-CG-0339
- Optimised design and quality
- Accessories: Anchor plate

DESCRIPTION	VALUE
Nominal voltage	24 V
Duty cycle	100 %
Power consumption	1.5 W
Holding force	1372 N
Design	Ship model, IP65
Connection	connection box
